

Maths Homework Y5 Mr Masingiri

Date set: 03/11/20

Date due: 09/11/20

You need to complete both sections

Section 1 -

1. $3,472 + 9,234 = 12,706$

2. $12 \times 13 = 156$

3. $7004 - 2,706 = 4,298$

4. Halve 15,600 = $7,800$

5. $84 \div 7 = 12$

6. Rhys reads 6 chapters of his book every day. The book contains 70 chapters. How many days will it take him to completely finish the book?

12 days

Section 2 -

1. $40,635 = 40,000 + 600 + 30 + 5$

2. Round 26,472 to the nearest 10, 100 and 1000.

$26,470$ (10) $26,500$ (100) $26,000$ (1000)

3. $600,000 + 12 \text{ hundreds} + 4 = 601,204$

4. Put these numbers in ASCENDING order:

$5,044$ $50,464$ $50,644$ $54,046$

5. $CMLXXVI = 976$

6. Complete the top part of the bar model:
