

## Alien Model Project

Over the next 3 weeks (until 5 February), we would like you to have a go at the following project: to plan and then make your own model alien.

Your alien can be any size you wish it to be, and as friendly or scary as you want it to be! You may also choose what you want to make it from – there are some ideas on the pictures on this page but you can decide how you want to make yours. You may decide to use “waste” items around your home such as things you’re going to recycle or put in the dustbin or things that no-one in your home wants any longer; you may want to try sewing an alien out of old clothes or crafting one from paper supplies you may already have at home. You could also use paper mache to create it. It’s up to you.

To help you organise your time, this week we would like you to plan your model. In your plan, you might want to sketch out what you hope your alien will look like and to think carefully about the different items you will need in order to create it and start to collect these. Have fun!
