Dear Teacher,

Thank you for purchase.

Directions:

- Print all the pages and ask the students to cut out the puzzle pieces (except the answer key).
- Before the puzzle pieces are cut out, I would suggest laminating them. It means that you will be able to use them for years to come.
- After the students have cut them out, ask them to arrange the pieces in order to match questions/definitions with their corresponding solutions/answers.
- If this is the first time your students are doing a *Tarsia puzzle*, you may want to guide them with the first few pieces, before they continue on their own.
- When putting the puzzle pieces together, the students can be working by themselves or in pairs/groups depending on the grade level and/or how difficult the puzzle is.
- If there is a side to any of the pieces that is blank, it tells you it's an outside piece. Think of them as the flat edge pieces in a puzzle.
- This is a great activity for test review and the pieces can be glued into interactive notebooks.
