

Maths Homework Y5 Mr Masingiri  
Date set: 6/01/22  
Date due: 10/01/22  
You need to complete both sections

Section 1 -

1. \_\_\_\_\_ =  $398,743 - 87,487$

2.  $84 \div 12 =$  \_\_\_\_\_

3.  $9,592 \times 4 =$  \_\_\_\_\_

4.  $5,908 +$  \_\_\_\_\_ =  $10,004$

5. I am thinking of a number. After I multiply it by 6 and halve the answer, I have 27.

*Use the inverse to work out my starting number.*

1 Tick the correct statement below.

A. A squared number is always an even number.

B. 69 is a squared number.

C.  $9^2 = 9 \times 9 = 81$

A.

B.

C.

2 Use  $<$ ,  $>$  and  $=$  symbols to compare the calculations below.

A.  $3^2 + 4^2$  ○ 30

B.  $7^2 + 8^2$  ○ 101

C.  $5^2 - 2^2$  ○ 21

3 Rachel and Nicky are discussing the numbers and arrays below.

55

36

Rachel

3 of these are square numbers.

Nicky

All of these are square numbers.

Who is correct? Prove it.
